# FIRE WARDEN REPORT

## REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

The 1970 forest fire season was a quite one in this area, quiet in part because of your continued cooperation and favorable weather conditions.

Fires that did occur were, for the most part, caused by debris burning, children and smokers.

The elimination of these three causes of forest fires would drastically change this picture-to bring about this change we make the following suggestions:

1. When the ground is not covered with snow a permit to burn must be obtained from the Forest Fire Warden. This permit covers waste burning, even if in an incinerator grass burning, as well as garden trash and brush burning such burning is restricted by regulation to prior to 9:00 A.M. and after 5:00 P.M. with the following exceptions:

Commercial or industrial burning is permissible at any time under normal conditions but only with the approval of the District Chief and a written permit from the Forest Fire Warden.

2. Fires caused by children can be prevented only with the complete cooperation of parents in the supervision of their children, keep matches out of reach of children this action will help to prevent fires and may save a life, the life of your child. Try to explain this to your child, won't you?
3. Forest fires caused by smokers can be reduced in number by the exercise of more care in the discarding of

matches and smoking material whether from a vehicle or by a hiker. In all cases, make sure that the butt or match you discard is out, dead out. Smokey says, "Thanks for your help", and invites you to join him in setting a good example for others in the prevention of fires and the protection of our environment.

Number of fires reported and acres burned:

STATE - 484 fires - 244 acres

DISTRICT - 30 fires - 42 acres

TOWN - none

    Home Economics

As may be seen from a study of the above, the recruitment and replacement of teachers continued to be a problem. However, with the contraction of the nation's economy now being experienced, it is possible that those teachers attracted to industry by its higher wages now may return to teaching.

The relations between the Farmington and Middleton School Districts continue to be good, and it is hoped that these will continue to develop. Especially to be recommended is the development and implementation of an AREA School for the two districts. There are benefits to be derived for both districts from such an organization.

As some of you may know, the State Department of Education has developed and is planning to implement, beginning in 1972, a new set of criteria for the elementary schools of the state. This will mean, for Farmington School District, and hopefully, for Middleton, a better educational opportunity for all of the children. Classes will be smaller, there will be more services offered and more space to accommodate all phases of this program. Though, as all programs of this nature are likely to increase costs to the taxpayer, it is thought that the benefits for the children will, in the long run, outstrip the costs.

As a result of recent changes in the election laws of the state, it has been necessary to change the procedure for balloting in the Middleton District. Polls must be open for at least five hours, and a non-partisan ballot must be used. The undersigned strongly urge all of the District voters to vote both for the candidate of their choice, and also to remain after the town business meeting, and make their wishes known in regard to the District Warrant.

In closing, the undersigned would like to express their appreciation of the cooperation they have received from the local citizens, school board members, bus drivers, and the students. During the days ahead we will appreciate, as in the past, your continued cooperation in the best interest of good education.

Respectfully submitted,

CHARLES H. MORGAN  
Superintendent of Schools

KENNETH J. BEAUPRE  
Assistant Superintendent
